SALISU WAHEED ADEKUNLE, FRONT-END DEVELOPER

Energetic Full Stack Web Developer 'in love' with JavaScript – particularly React. For me, web development is more than just writing code. Is to communicate and work well with others in a team, to be curious and open to criticism and different approaches, to solve problems and to never stop learning. I'm currently looking for an opportunity to continue doing what I love, in a challenging but friendly environment.
